ANNUAL REPORT FOR THE ACADEMIC YEAR 2021-22

Arihant Institute of Business Management is known for its unwavering endeavor to prepare leaders who think beyond conventional management skills. In the ever-changing and competitive environment of this 21st century, the world is shrinking, and so is the corporate world. Uncertainty, changes in technology as well as the economy, and large-scale integration around the globe have converted a world into a very small village. We prepare our students with quality education to transform the geographies and markets, to become global citizens.

Students of AIBM participated with great Zeal and Enthusiasm in TREE PLANTATION DRIVE & MAINTENANCE, which was held on 12.09.2021. A good number of saplings were planted by faculties and students of MBA at the institute's campus to raise awareness and consciousness about the environment.

On 2nd October 2021, a batch of 50 Arihant Institute of Business Management Pune students visited the Mother Teresa Old Age home, in Pimpri. The students were overwhelmed to see how these people were suffering in old age which was apparent from their moist eyes. So AIBM Pune tried its level best to bring out some happiness and joy in the lives of the inmates by singing and dancing together. A token of love in the form of a kit that includes daily essentials of personal hygiene like handwash, sanitizer, Dettol, etc. was donated.

AIBM celebrated Children's Day on 14th November 2021 at Manvya Gokul Project Orphanage in Pune in association with Robin Hood Army Academy. AIBM students engaged the kids of the orphanage by motivating them to participate in recreational activities like dancing, drawing, etc. Students distributed drawing books, crayons, etc. to the kids of the orphanage.

In the Academic Year 2021-22 Arihant Institute Business Management, MBA Advanced learner students attended the IIM Kozhikode certification program for Fifteen days. Some of the students were selected to participate in the B plan competition. This program will help them to manage and maximize a company's data assets, integrate analytics into decisions and processes, and power innovation for businesses. This program's focus on real-world examples, case studies, and practical sessions will ensure that you build a strong foundation in business analytics and make high-output business decisions.

Industrial Visit Students are taken to a number of industries to give them exposure to the real-time functioning of Industries. Industrial visit is a part of professional courses, during which students visit companies and get an insight into the internal working environment of the company. Industry visits sensitize students to the practical challenges organizations face in business.

AIBM started a **Series of Webinars** wherein Industry Experts and Senior Professionals were invited to help students gain insights into how different industry functions and also to help them to stay focused and motivated.
