2.5.1 Mechanism of Internal assessment is transparent and robust in terms of frequency and mode

Internal Assessment –

Class Test:

- For students internal assessment we are following various methods, out of which one in class test. For the subjects' individual faculty members of their respective subjects are taking their internal assessment

Role Play:

PDF Compressor Free Version

Students are divided into group of minimum five students and maximum eight students, subject faculty allot topic to the students and then students will perform in the class in front of all the other students. Topics are related to the management problem, company orientation, and on the bases of specialization activities.

Students are divided into group of minimum five students and maximum eight students, subject faculty allot topic to the students and then students will perform in the class in front of all the other students. Topics are related to the management problem, company orientation, and on the bases of specialization activities.

Presentation criteria include

- Communication
- Presentation skills
- Coordination,
- Questions & Answers

Discussion for GD:

PDF Compressor Free Version

One more criteria is Group discussion for that students are divided into group of eight, subject faculty give them a time of 5 minutes for internal discussion and searching the facts of the topic given to them. Then each group is allotted 15 minutes for their group discussion
