## Significant contributions made by IQAC Academic Year 2022-2023

"Significant contributions made by IQAC (Internal Quality Assurance Cell) during the Academic Year 2022-2023" refer to notable achievements or initiatives undertaken by the IQAC within the specified timeframe that have positively impacted the quality of education, administrative processes, and overall development of the institution. These contributions may include improvements in teaching methodologies, enhancements in internal quality assessment systems, implementation of student feedback mechanisms, establishment of industry partnerships, and strengthening of community engagement initiatives. Essentially, they represent key actions or accomplishments that have contributed to the advancement and excellence of the institution during the specified academic year.

### Plan of Action:

- Implementing a comprehensive faculty development program.
- Enhancing internal quality assessment mechanisms.
- Introducing student feedback mechanisms for continuous improvement.
- Establishing industry partnerships for practical training opportunities.
- Strengthening community engagement initiatives.

### Achievements/Outcomes:

- Faculty members underwent specialized training sessions, resulting in improved teaching methodologies and student engagement.
- The IQAC revamped internal quality assessment processes, leading to more effective monitoring of academic standards and timely interventions where necessary.
- Introduction of student feedback mechanisms enabled the institute to gather valuable insights, fostering a culture of continuous improvement in teaching and learning practices.
- Collaborations with industry partners provided students with real-world exposure and practical training opportunities, enhancing their employability skills.
- Community engagement initiatives, including outreach programs and alumni interactions, fostered a sense of belonging and strengthened the institute's network of stakeholders.
