## **Students' representation and engagement in various administrative, co-curricular and extracurricular activities**

At Arihant Institute of Business Management (AIBM), student representation and engagement in administrative, co-curricular, and extracurricular activities are facilitated through structured processes and established norms. The institution has a dedicated Student Council that plays a pivotal role in fostering student involvement across various aspects of academic and campus life. The Student Council members are elected through a transparent democratic process, ensuring that students have a voice in decision-making.

Additionally, students are actively engaged in various institutional bodies, such as academic committees, cultural committees, and sports committees, where they represent their peers and contribute to the planning and execution of events and activities. This engagement provides students with leadership opportunities, encourages collaboration, and helps in the holistic development of their skills.

AIBM also ensures student representation in important administrative decisions, providing a platform for students to express their views and participate in institutional growth. Through these channels, the institution promotes a culture of inclusivity, active participation, and student-driven initiatives, enabling students to contribute to the overall development of the institution while gaining valuable experience in leadership and teamwork.
